

2 things we all have in common

1

All people have a mother and a father

2

All people are vulnerable as children to the circumstances their parents cultivate

The Family Cycle

The Human Population

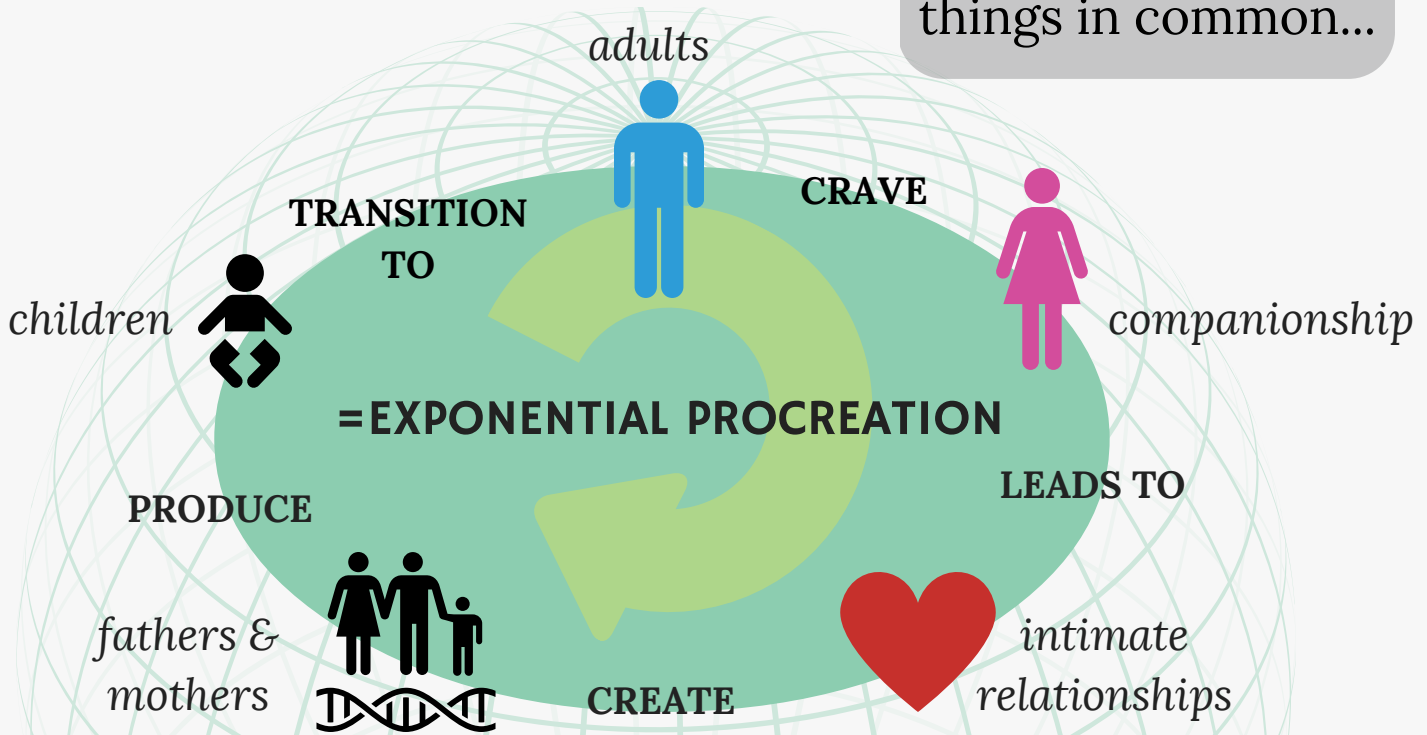

2011: 7 billion people

In 2 generations...it will exceed 10 billion!

Yet each human will still have 2 things in common...

This is the Family cycle. The most POWERFUL & INFLUENTIAL cycle in the world

and it's in trouble...

was meant to occur in the context of biblical households

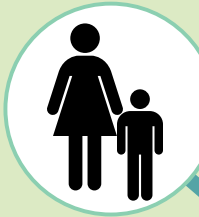

HOWEVER

COHABITATION

OUT OF WEDLOCK BIRTH

SINGLE PARENTING

DIVORCE

have become the result of a frightening epidemic

The Family God's Way vision is that by promoting the founding and strong growth of Biblical households we can positively impact family cycles of today and the future. Family God's Way uses the power of the family cycles itself to turn it around, one household at a time.
